Tokyo (Yokohama), Japan

An hour from the port city of Yokohama is the booming city of Tokyo. A visit to vibrant Tokyo reveals a mix of traditional and modern attractions: See the Imperial Palace, participate in a tea ceremony or shop in the legendary Ginza district. Tours also take passengers to the Meiji Shrine and the Senso-ji Temple. Many visitors opt to join an excursion to Fuji-Hakone-Izu National Park for a boat trip on the lake, a cable car ride to Mount Komagatake and an unforgettable view of Mount Fuji. [More info](#)

Hiroshima, Japan

The city was built up from five small fishing villages on sandy islands in the delta of the Otagawa River. Hiroshima has been completely rebuilt, except for what is known as the A-Bomb Dome, the remnants of the former Industrial Promotion Hall. The Dome is easily viewed from the Peace Memorial Park across the river where a variety of monuments commemorate those who died. [More info](#)

Nagasaki, Japan

Nagasaki is a scenic and amicable town. "Madame Butterfly" fans will want to place the Glover House at the top of their list; the 19th-century European-style house served as the setting for Puccini's ardent opera. The gardens at Peace Park and the Arita pottery center are also popular attractions. [More info](#)

Busan, South Korea

South Korea's second-largest city is known for its colossal fish market. The top shore excursions include visits to the Busan Tower, Taeshin Park and the crowded beaches at Haeundae. Tourists will also want to experience the extraordinary views from the mountaintop Kumjongsansong Fortress or listen to the chanting of the monks at the Tongdosa Temple. [More info](#)
